Would you recommend this program to a colleague?

What aspect of the CME program is the most important to you?

CME Program Survey: Comments

"Communication with the program facilitator & the medical editor is excellent."

"Convenience is great. Information is excellent."

"I think this CME program will be very useful to us older doctors and perhaps parents of young children for whom going out at night to lectures can be a problem."

"Enjoyable - I must be more disciplined at finishing the program."

"I found the 3D medical animations the best feature of your website. I use it on a daily basis when consulting with patients."

"Virtual Medical Centre CME is a good resource, hassle-free and informative."

"I like the online convenience."

"This is good to learn and up-date your knowledge at home."

"Topics are presented in simple and updated manner."

"Great variety of relevant topics."

"Very convenient and informative."

"VMC is an excellent web site. Any one who is interested in keeping up to date would find this site a great web teacher."
